

SIDEWALK REPAIR PROGRAM

Only sidewalks adjacent to residential single-family homes and Jefferson County Public Schools are eligible under this program.

When Metro Public Works becomes aware of a raised or uneven sidewalk, an inspector checks the area and marks any raised or uneven sections to be repaired with white paint. It is then given a rating of 1 to 5 based on the rating criteria below.

Rated 1	Sidewalk is rough or holds water; no height difference
Rated 2	Sidewalk raised less than one inch
Rated 3	Sidewalk raised between one and two inches
Rated 4	Sidewalk raised between two and three inches
Rated 5	Sidewalk raised over three inches (highest priority)

To report a raised or uneven sidewalk, please click on the Sidewalk Repair Request Form below. You may also contact Cheryl Browning at (502) 574-3988 or by email to cheryl.browning@louisvilleky.gov for sidewalk repairs only.

SIDEWALK REPAIR REQUEST FORM

Address of problem area: _____

Name: _____

Phone #: _____

Description of problem: _____

When a property is inspected by Public Works and found to be commercial, a Notice of Violation is sent to the property owner advising them of the existence of a raised or uneven sidewalk, and that it is their responsibility to make the necessary repairs either at their expense or through the Commercial Loan Program (CLP). The CLP is offered on a “first come – first served” basis as funding is limited.
